# UPCOMING FOSTER, ADOPTIVE, RELATIVE PARENT FOUNDATION SERIES

## MODULES 1-4B

### MODULE 1: PARTNERS IN PERMANENCY

Introduces the parent or caregiver to the primary goals of child protective services and how these services can help achieve protection and permanence for children and their families. The parent or caregiver is introduced into his or her role as a member of the team and how collaboration with caseworkers, the child protection agency and other professionals is imperative to serving the child, birth family and foster parent. The importance of advocacy for the child is also emphasized as the best interest of the child needs to be considered during case planning, with schools and other service agencies/providers.

### MODULE 2: CULTURAL DYNAMICS IN PLACEMENT

An overview of culture and the ways in which our values and codes of conduct are impacted by culture. Participants learn to separate culture from race and learn to identify the many and complex ingredients of cultural identity. Caregivers also will learn methods to more successfully parent a child from a different culture.

### MODULE 3: MAINTAINING FAMILY CONNECTEDNESS

Provides information about the losses experienced by birth families, expected behaviors of grieving birth parents and ways to work effectively with birth families along a continuum of contacts. Parents or caregivers also learn how to identify key members of the child's birth family and the significance of sibling connections.

### MODULE 4A: DYNAMICS OF ABUSE AND NEGLECT PART 1

Familiarizes the parent or caregiver with the dynamics of physical and sexual abuse, emotional maltreatment and neglect, as well as the physical and behavioral indicators in children. Parents or caregivers also become familiar with the types of family situations that can contribute to abuse and neglect. Laws regarding mandatory reporting of suspected abuse and neglect are also examined.

## MODULES 5-9

### MODULE 5: IMPACT OF MALTREATMENT ON CHILD DEVELOPMENT

Describes the impact of maltreatment on a child's development, including outlining typical child development in the five developmental domains, as well as developmental delays that are associated with the different forms of abuse and neglect. Parents or caregivers will learn about resources to address developmental delays. In addition, parents or caregivers will understand that children will experience differing degrees of traumatization due to their resiliency factors, and will also need to learn life skills differently due to their abuse histories.

### MODULE 6: ATTACHMENT

Demonstrates normal, healthy attachment and how it influences child development. Parents/caregivers are introduced to how attachment is the foundation for guidance and positive discipline, and how it is impacted by separation from primary parents, siblings and other attachment figures. Participants also learn to identify stages in the grieving process as well as strategies to reduce the trauma to children who have experienced separations from significant others.

### MODULE 7: SEPARATION AND PLACEMENT
